PROFESSIONAL SUMMARY

Motivated Computer Science student currently pursuing MCA, with a strong foundation in full-stack web development, AI/ML, and data science. Hands-on experience building production-grade web applications using React.js, Flask, and Python. Passionate about leveraging emerging technologies—including deep learning and digital twins—to solve real-world problems. Quick learner with strong analytical and communication skills eager to contribute to innovative teams.

TECHNICAL SKILLS

Programming Languages: Python, Java, C

ML & AI Frameworks: TensorFlow, OpenCV, Data Preprocessing, NLP

Web Development: HTML, CSS, JavaScript, React.js, Flask, Responsive Web Design

Deployment & Tools: GitHub, Vercel, VS Code, Jupyter Notebook, Git, Google Colab

Data & Visualization: Pandas, NumPy, Matplotlib

ACADEMIC & PERSONAL PROJECTS

Dog Emotion Detection

2024

Web-Based Deep Learning Project • Flask • ReactJS • MobileNetV2 • OpenCV

- ▶ Built a full-stack web app that detects dog emotions (Happy, Sad, Angry, Relaxed) using MobileNetV2 with voice output for predictions.
- ▶ Integrated Flask backend with ReactJS frontend; used OpenCV and NumPy for image preprocessing pipeline.

Virtual AI Farm Twin

2024

Full-Stack AI Application • React.js • Express.js • AI/ML

- ▶ Designed a digital twin simulation of a farm environment with AI-driven real-time monitoring and decision support.
- ▶ Enabled predictive insights for smart agriculture using intelligent modelling of farm conditions.

Climeplus – Real-Time Weather Prediction

2023

Web Application • Flask • HTML/CSS/JS • OpenWeatherAPI

- ▶ Developed a weather forecasting app fetching live data from OpenWeatherAPI with a clean, responsive interface.
- ▶ Python Flask backend handles API requests and JSON data processing for accurate, up-to-date weather insights.

EDUCATION

Master of Computer Applications (MCA)

2025 – Present

St. Philomena College (Autonomous), Puttur

- ▶ Relevant Coursework: Artificial Intelligence & Machine Learning, Natural Language Processing, Data Science Fundamentals, Python Programming.

Bachelor of Computer Applications (BCA)

Graduated July 2025

Sacred Heart College, Madanthyar – Mangalore University

- Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming.

CERTIFICATIONS & AWARDS

- NCC 'C' Certificate – National Cadet Corps examination, B Grade
- Rajyapuraskara Award (Scouts & Guides) – Completed and earned the award
- Cybersecurity and Digital Forensics – TALFOR
- Database Management System-NPTEL
- Natural Language Processing-NPTEL
